

Correction

An RNA Aptamer Based Assay for the Detection and Analysis of Malachite Green and Leucomalachite Green Residues in Fish Tissue

Sara L. Stead,* Helen Ashwin, Brian H. Johnston, Anne Dallas, Sergei A. Kazakov, Jonathan Tarbin, Matthew Sharman, Jack Kay, and Brendan J. Keely

(Anal. Chem. 2010, 82, 2652–2660)

On page 2652, two authors (Anne Dallas and Sergei A. Kazakov) were inadvertently left out, and an additional affiliation of Brian H. Johnston was not noted in the original publication. The corrected list of authors and affiliations should be as follows:

Sara L. Stead;[†] Helen Ashwin;[†] Brian H. Johnston;^{‡,§} Anne Dallas;[‡] Sergei A. Kazakov;[‡] Jonathan Tarbin;[‡] Matthew Sharman;[‡] Jack Kay;^{||} Brendan J. Keely[⊥]

[†]Food and Environment Research Agency.

[‡]Somagenics Inc.

[§]Stanford University School of Medicine.

^{||}Veterinary Medicines Directorate.

[⊥]University of York.

The address line on page 2652 did not include the additional affiliation of Brian H. Johnston, and the corrected address line should be as follows:

Food and Environment Research Agency, Sand Hutton, York YO41 1LZ North Yorkshire, U.K., Somagenics Inc., 2161 Delaware Avenue, Santa Cruz, California 95060, Department of Pediatrics, Stanford University School of Medicine, Stanford, California 94305, Veterinary Medicines Directorate, Woodham Lane, New Haw, Addlestone, Surrey KT15 3LS, and Department of Chemistry, University of York, Heslington Lane, York YO10 5DD.

There is also an error in the wording of first line of the second paragraph on page 2656; the word “molar” should be deleted before the word “concentration” to avoid any confusion.
