

## Correction

### **Rapid LC-MS Drug Metabolite Profiling Using Microsomal Enzyme Bioreactors in a Parallel Processing Format**

**Besnik Bajrami, Linlin Zhao, John B. Schenkman, and James F. Rusling\***

(Anal. Chem. 2009, 81, 9921–9925)

There were three unfortunate errors which occurred while writing this article. The first is the labeling of 5-hydroxydiclofenac (5OH-DCF) as 5'-hydroxydiclofenac throughout the whole article (Figure 1, Scheme 2, and in several parts of the text). The hydroxylation of diclofenac by Cyt P450 3A4 leads to 5-hydroxydiclofenac and not 5'-hydroxydiclofenac. The second error occurred in Scheme 2a, where we have mistakenly labeled Cyt P450 2C8 instead of Cyt P450 2C9 as the enzyme responsible for the metabolism of diclofenac into 4'-hydroxydiclofenac (not 4-hydroxydiclofenac (4-OH-DCF)). Cyt P450 2C9 is the enzyme responsible for the metabolism of diclofenac into 4'-hydroxydiclofenac (4'-OH-DCF). The third and final error is in the interchanging of ref 6 with ref 7. Reference 6 should be Chang, M.; Kim, E. J.; El-Shourbagy, T. A. *Rapid Commun. Mass Spectrom.* **2007**, *21*, 64–72. Reference 7 should be Carlson, T. J.; Fisher, M. B. *Comb. Chem. High Throughput Screening* **2008**, *11*, 258–264.
