

Correction to Alloy Negative Electrodes for Li-Ion Batteries

M. N. Obrovac* and V. L. Chevrier

Chem. Rev. **2014**, *114*, 11444–11502. DOI: 10.1021/cr500207g

Page 11449, eq 16 should read:

$$\check{U}_R = \frac{(58327.5 \text{ Ah/L})}{70 + (110) \left[1 + \frac{(583.275 \text{ Ah/L})}{\check{q}_R^-} \right]} [(3.9 \text{ V}) - V_{\text{avg}}^-]$$

The correct equation was used for all calculations in the published article, so none of the results in the article are affected by this change.
