

Correction to “Thermophysical Properties of the Liquid Ga–In–Sn Eutectic Alloy”

Yuriy Plevachuk,* Vasyl Sklyarchuk, Sven Eckert, Gunter Gerbeth, and Rada Novakovic

J. Chem. Eng. Data **2014**, 59 (3), 757–763. [10.1021/je400882q](https://doi.org/10.1021/je400882q)

The authors regret that the values given in the original paper (*J. Chem. Eng. Data* **2014**, 59 (3), 757–763) for the regression parameters of the temperature-dependent density in eq 9 are not correct. While the measured density values in Table 3 and in Figure 6 are all correct, the parameters in eq 9 shall be $\rho_0 = 6.36 \text{ g}\cdot\text{cm}^{-3}$ and $d\rho/dT = -7.76 \cdot 10^{-4} \text{ g}\cdot\text{cm}^{-3}\cdot\text{K}^{-1}$.
