

Correction to “Electromechanical Signatures for DNA Sequencing through a Mechanosensitive Nanopore”

A. Barati Farimani, M. Heirani, and N. R. Aluru*

J. Phys. Chem. Lett. **2015**, 6 (4), 650–657. DOI: [10.1021/jz5025417](https://doi.org/10.1021/jz5025417)

Figure 1 of our previously published paper was missing panel d, which is now included.

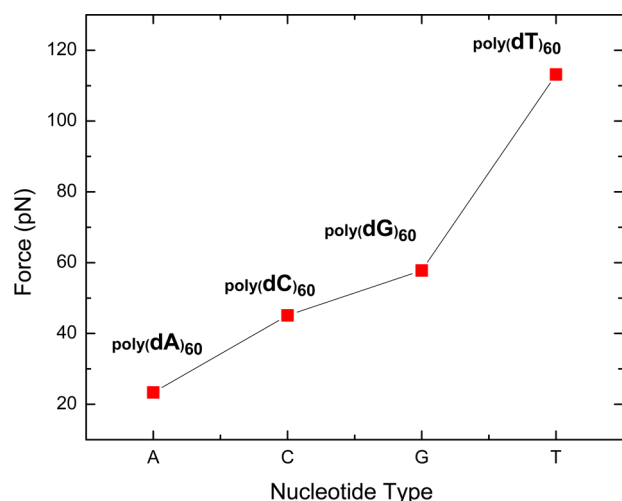

Figure 1. (d) Force (averaged) induced in the membrane due to the presence of each base in MscL.
