## Supporting Information

We had a transcription error in the Supporting Information, Table S2 (page S3): Physico-chemical properties of selected PCBs. In particular, the values listed in column 7 ( $\log K_{\text{hdw}}^{\text{e}}$  (–)) and column 8 ( $V_{\text{m}}^{\text{f}}$  (cm<sup>3</sup>/mol), both from SPARC) were mixed up. The SI has been corrected. None of the correlations and conclusions discussed in the manuscript are affected by the correction.
