

Correction to “Facile Preparative Route to Alkanethiolate-Coated Au₃₈ Nanoparticles: Postsynthesis Core Size Evolution”

Junhyung Kim, Kesta Lema, Macmillan Ukaigwe, and Dongil Lee*

Langmuir 2007, 23 (14), 7853–7858. DOI: [10.1021/la700753u](https://doi.org/10.1021/la700753u)

Nanoparticles synthesized in a similar manner have been shown, by high resolution mass spectrometry analysis,¹ to have the formula Au₂₅(SR)₁₈, where SR is alkanethiolate. We conclude that the nanoparticles prepared in this paper and labeled with the formula cited above, were instead alkanethiolate-coated Au₂₅ nanoparticles.
