Equation 2 on page 9593 was printed incorrectly. The correct form reads as follows:

$$\sum_{i=1}^N z_i c_i e^{-y_D} + \sum_{j=1}^M \frac{c_{g,j}}{1 + 10^{-\varepsilon_j(\text{pK}_j - \text{pH})} e^{\varepsilon_j y_D}} = 0 \quad (2)$$
